Easy layout by free wheel
 Tilt front=Fix
 Tilt back=Move free

STANDARD LEAGUE Radikal Darts ® machine is already prepared with Standard League Mode software for the development of leagues. Operators will only have to program the machine to their convenience. Team entries, games and league matches will be monitored by the machine and the operator can control everything in real time and from anywhere, just needs an Internet connection. Radikal Darts ® machine also supplies all required league information in real time: matches, results, classifications

VERTUAL LEAGUE Operators can create an Virtual League with all the teams registered at any or all of his Radikal Darts ® machines, irrespective of the geographical location. The Virtual Leagues presents countless advantages, because thanks to the Remote Refereeing System ® (includes cameras, laser and others sensors) that records the games, the operator can see the games from a PC and an Internet connection. The operator validates the results and the software send immediately the information to the machines, where the player can check the updated information. With this system, the team can play always in their usual premises and the players can play at any time they wish to (they will be refereeing later with the Remote Refereeing System ®). It is important to mention that as the machine always takes the best mark of each player of the team, the Virtual Leagues stimulates the sport spirit and allows the best contribution of each player to the global team result.

ON LINE LEAGUE Operators can create an On Line League, through the best and latest software, with all or any of the teams registered at any of his Radikal Darts ® machines. This kind of league is with actual presence with each team in its premises, but seeing each other through the cameras located at each Radikal Darts ® machine in real time. It means that two teams located in different locations can play against each other in real time and watching the opponent. With this system, the ON LINE Leagues can be totally local, nation wide or even international

TOURNAMENTS The software allows to create Tournaments of different kinds and with our most popular games
 BEST OF ONE WITH REPECHAGE BEST OF ONE - DIRECT KO BEST OF THREE WITH REPECHAGE BEST OF THREE - DIRECT KO

VIRTUAL OPEN CHAMPION SHIP A very interesting formula competition, as allows players of different level to participate in the same Championship. The system automatically categorizes the players depending to their previous marks. The Remote Refereeing System ®, with its cameras, laser and other sensors, records each game which will be validated or invalidated by the operator, that allows the player to play at any time they wish to and allows also to participate in the Championship any players irrespective of their location. The system takes always the best mark of the player which stimulates the sport spirit and the willing to improve their marks. The software keeps constantly update the results and the players can check their results and the classification in real time. One of the most popular competitions of Radikal Darts®!!

Radikal Darts has been approved as Manufacturing Sponsor by the NDA (National Darts Association) of the USA.

TEAM DART 2011 Because with Radikal Darts the operator and the players can participate in international competitions (Championships, Tournaments or Leagues) against players from different continents. Because Radikal Darts organizes every year several major face-to-face events, gathering players from different countries for a truly international dart experience.

And we should not forget that Gaelco Darts is a manufacturer member of the NDA (National Darts Association) and Radikal Darts is an endorsed and approved official machine of the NDA. That allows us to qualify players for the world famous darts event Las Vegas Team Dart. **Radikal Darts, the most profitable dart machine of the market**
